

Introducing
the

AFCO Hurricane Bracket System

**Round
Fluted**

**Square
Fluted**

Photos are for illustrative purposes only.

Load-bearing capacity is dependent on distributing the load evenly over bearing surfaces of the shaft. All installation information is of general nature; columns should be installed and secured (fastened) according to standard construction practices and in compliance with applicable local, state and federal building regulations.

- **Answer to your UPLIFT code requirements**
- **Meets ASCE-7-02 for 150 m.p.h. winds**
- **Independent lab & engineer certified**
- **Competitively priced**
- **Packaged complete with all fasteners**
- **Easy to install & inspect**
- **Mounted to the column shaft for maximum strength**

Systems Available:

- **6" & 8" Round Fluted**
- **6" & 8" Square Fluted**
- **All AFCO non-fluted square aluminum & square fiberglass columns**
- **Contact AFCO or your representative for full bracket & column availability**
