THE iXo SILL
FEATURES

**FLUSH MOUNT RISER ADJUSTMENT SCREWS**
Completely eliminates the issues with lost or damaged screw caps.

**HIGH DAM SILL PLATE**
Features a Dual-Durometer Riser Cap for optimum shielding against air and water infiltration.

**SURESEAL GASKET**
An optional barrier of protection that seals the bottom of the sill from water or air penetration.

**FULL COMPOSITE SUBSTRATE**
Featuring the co-extruded, fully integrated one piece nosing.

**SILL FINISH IN DARK BRONZE, SATIN COPPER OR MILL**
For all configurations, as well as Sill Covers, Sill Tape, End Seals and Notching options.
EMBOSSED SYNTHETIC RISER AND NOSING
Available in Chocolate, Woodgrain or Mahogany for all configurations.

VARIABLE-SWING CONFIGURATION ADAPTABLE

The iXo Sill features an easily interchangeable riser that allows for quick conversion between inswing and outswing configurations, a simple solution for reversing patio or sidelite sill handing and an easy fix for damaged riser replacement in the field.

ALUMINUM RISER CHANNEL
Provides superior Astragal bolt connection in high wind environments.
